

## TCM Forklift Parts

TCM Forklift Part - Forklift trucks are a major player in the material handling field of each and every international industry. Transporting industrial goods happens every day on our industrious planet. Primarily innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained recognition after World War II in the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these machinery spread worldwide.

Originally established as Toyo Carrier Manufacturing Company Limited, in 1949, the business was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's first lift truck. Over the years, TCM forklifts have become a global leader in lift truck manufacturing and have built a solid reputation with the trade. TCM started constructing forklift manufacturing locations outside of Japan during the 1980s and is now engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

With more than 50 years of accumulated expertise and technology, TCM has been proudly making many models of industrial forklifts, making their models recognizable all over the globe. With an energetic and strong staff, TCM has been able to constantly work towards becoming a future leading material handling business.
