

Clark Forklift Part

Clark Forklift Part - Performing globally, there are now 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those in service in North America. Clark has five main lines of lift trucks across the world, making it one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive designs of lift trucks, with components covering more than 120,000 particular items for all of its automated equipment. Your local Clark Seller is your total source for availability of all your parts requirements provided by Clark Totalift.

Clark's exceptional Parts Distribution Stores are conveniently stationed in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to offer the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a very amazing intercontinental support network. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing safety features such as the worker restraint system. This exceptional commitment to safety is at this time a standard feature on every lift truck.

Clark's continual goal to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the world to be certified with the internationally accepted quality standard ISO 9001 for all of their manufacturing plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has preferred the extremely economical and beneficial system of "Lean Production" for its assembly plants and use of resources. This system was established to acknowledge the most efficient method of manufacturing facility stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to enhance the efficiency and brilliance of their products while minimizing costs. The contemporary value engineering agenda combines innovative product growth and provides superior client support and service within the industry.
